

SAFETY & WELLNESS

Safety

Safety is high priority. All children attending on Sunday must be checked into our security registration system. The system provides a nametag and security receipt for each child. During the service, the KidsPoint area is locked. Parents must present their child's security receipt to enter the wing and pick-up their child. All volunteers undergo a thorough screening process, background and reference checks, and ongoing training.

Wellness

Children with any of the following symptoms in the last 24 hours should not be present in our classes or events.

- Fever (over 99.6 degrees)
- Vomiting
- Diarrhea
- Frequent, congested coughing
- Severe sore throat
- Draining nose (not clear)
- Eye infection

A note about Snacks

We maintain a "Peanut Free Campus". Parents, please note specific allergies or medical information through the check-in system AND tell your child's teacher.

Children in the nursery will receive Puffs. All other children up through pre-K will receive Cheerios.
